

I am extremely concerned about the status of this proceeding. I would like to see my K-LOVE stations remain on the air in their current status. This station provides safe, family-friendly programming with out commercials to my family as well as many families in my community. I believe that removal of these stations would be a detriment to our society and keeping these stations on the air is in the public interest. Since these stations are supported by the listeners, their existance shows there is public interest in the stations and should this interest decrease, so would the need for such stations.

please keep my K-LOVE stations on the air and do not replace these FM Translators with LPFM or give them priority over the FM Translators.

Thank you.
